

EYES Final Report 2016

Highlights

EYES (Educating Youth in Engineering & Science) had another great year by sparking curiosity in science, engineering and technology for over 14,000 youth in southern Saskatchewan in 2016

We delivered 568 workshops in 76 schools in 39 communities

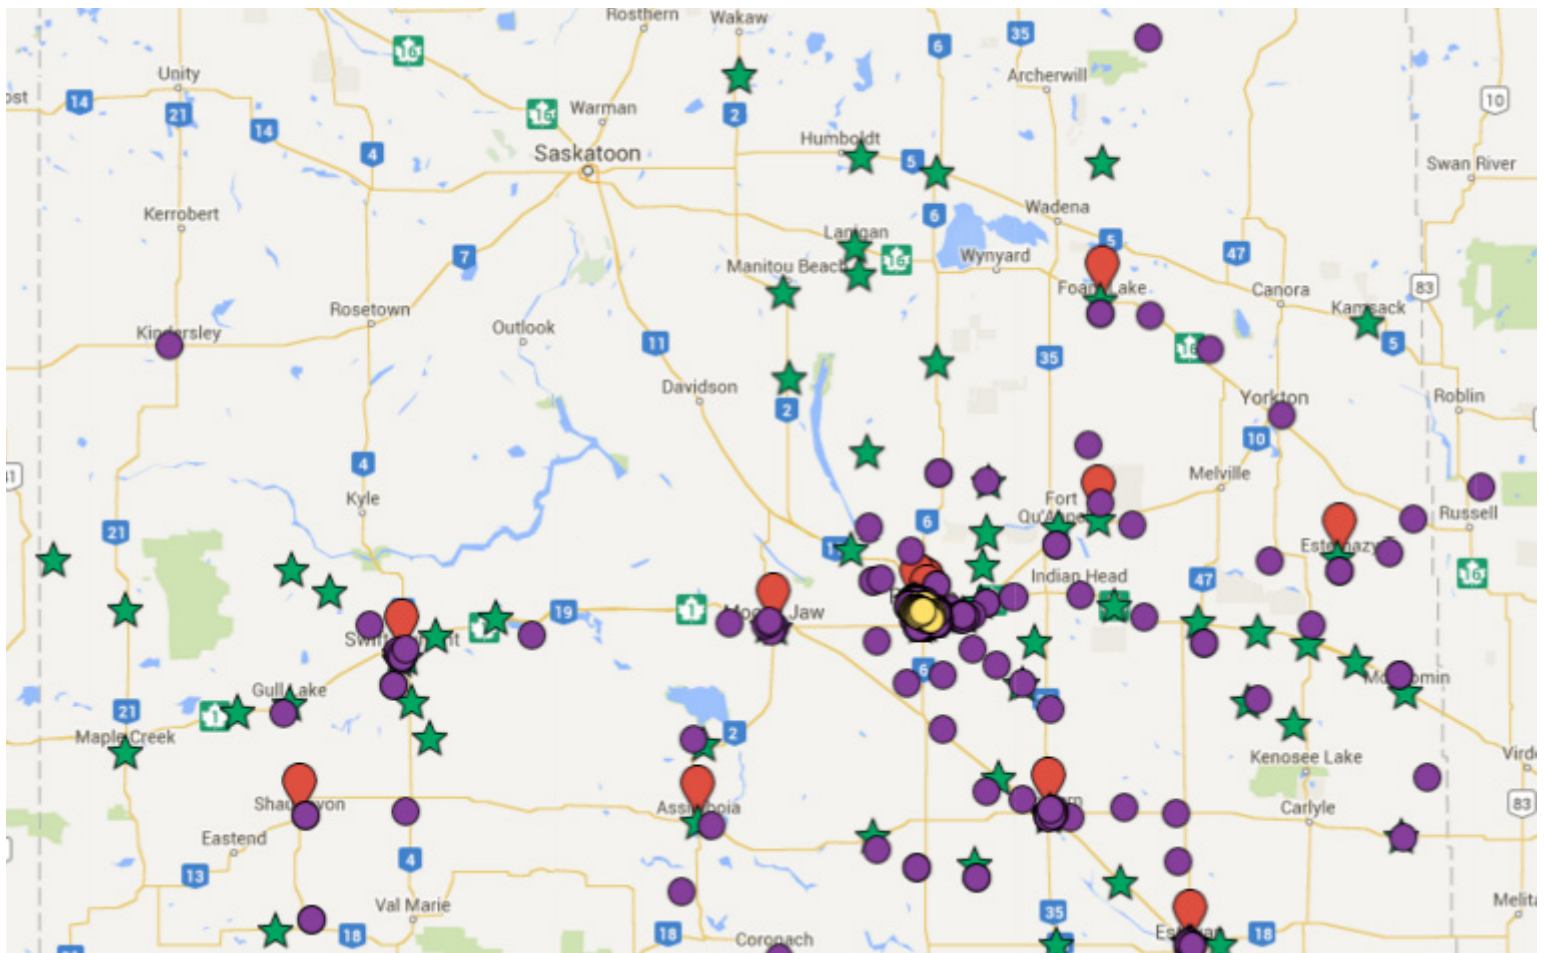

We expanded added an All Girls Jr Camp!

Impact

This map of southern Saskatchewan shows the breadth of our program.

Green Star - Elementary school workshop location
Red Marker - EYES summer camp location
Purple and Yellow dots - EYES Camper's postal code

Impact

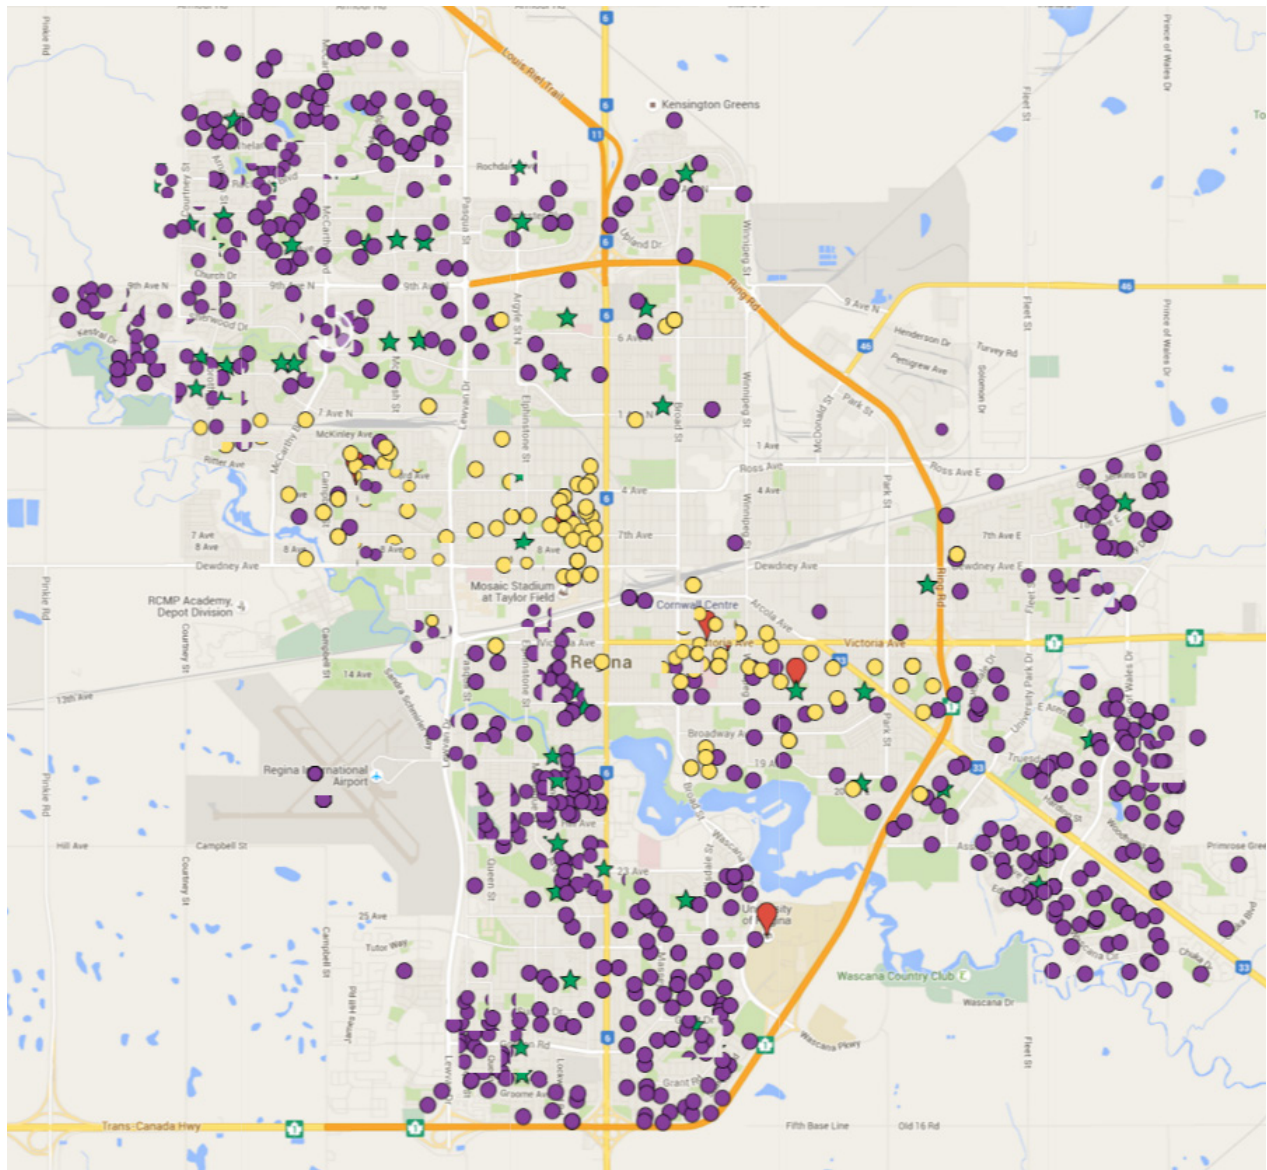

This map of Regina shows our local impact and outreach programs.

Green Star - Elementary school workshop location

Red Marker - EYES Summer Camp location

Purple dot - EYES Camper's postal code

Yellow dot - Bursary Camper's postal code

Campers

Camper surveys reported 99% of campers had a positive experience and 96% of campers would consider coming back next year.

Direct Camper Quotes

“camp was an amazing experience for me and it made me want to learn much much more about computers than i already know. Also, I loved the hot lunch; great idea.”

“Eyes camp taught me lot's of new things and it was fun at the same time so I think it was really awesome!(:”

“It is the best engineering and science camp ever!!!!”

“Yes that camp was..... AWE-SOME AND SUPER EPIC AND SUPER DUPER FUN AND CAN NOT BE KNOCKED OFF THE TOP”

Parents & Teachers

87% of parents plan to register again next year.

“My son has a diagnosis of PDD_NOS (Autism Spectrum) and ADHD. His leader supported and encouraged him without making him feel that he needed to change to fit in.”

75% of teachers ranked their workshop as excellent

“Lots of enthusiasm, made it fun and competitive. You were excited about science, and in turn, so were the students”
